Marlene H. Dortch, Secretary **Federal Communications Commission** Office of the Secretary 445 12th Street, SW Washington, DC 20554

Re:

WC Docket No. 10-90, WC Docket No. 11-42 2013 ETC Annual Report of Bixby Telephone Company Study Area Code 431969

Dear Ms. Dortch:

On behalf of Bixby Telephone Company "Bixby", JSI files the attached confidential and redacted versions of the FCC Form 481 ETC annual reporting information pursuant to sections 54.313 and 54.422 of the Commission's rules. Bixby seeks confidential treatment under Protective Order for section 54.313(f)(2) financial information.² The redacted version is also being filed this date via the FCC's Electronic Comment Filing System.

Please direct any questions regarding the filing to the undersigned.

Sincerely.

John Kuykendall JSI Vice President 301-459-7590

ikuykendall@jsitel.com

Bixby Telephone Company

Response to Line 510 - Service Quality Standards and Consumer Protection Rules Compliance

In establishing this certification in its 2005 ETC Order,¹ the FCC found that an ETC must make "a specific commitment to objective measures to protect consumers." The Commission found that for wireless ETCs, compliance with CTIA's Consumer Code for Wireless Service would satisfy this requirement and that the sufficiency of other commitments would be considered on a case-by-case basis. In this context, the FCC stated, "to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement."

Bixby Telephone Company ("Company") hereby certifies that it is complying with applicable service quality standards and consumer protection rules. The Company complies with current service quality and consumer protection provisions under state and federal law. These provisions include, but are not limited to, the following: 1) the minimum directory requirements (OAC 165:55-7-1(e) (1); 2) the Truth-in-Billing Rules 47 CFR § 64.2401, as required in the OCC rules at OAC 165:55-9-1; 3) CPNI rules, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

¹ Federal-State Joint Board on Universal Service, CC Docket No. 96-45, Report and Order, FCC 05-46 (rel. Mar. 17, 2005) ("2005 ETC Order").

Bixby Telephone Company

Response to Line 610 - Ability to Function in Emergency Situations

Bixby Telephone Company ("Company") hereby certifies that it is able to function in emergency situations as set forth in the Code of Federal Regulations, Title 47, Part 54, Subpart C, §54.202(a)(2). The Company's network is designed to remain functional in emergency situations without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations as required by Section 54.202(a)(2). The Company can change call routing translations as needed to reroute traffic around damaged facilities. Changing call routing translations also allows the Company to manage traffic spikes throughout its network, as emergency situations require.

Specifically, the Company is able to function under emergency operations in accordance with Title 165, Chapter 55 of the Oklahoma Corporation Commission (OCC) regulations, which include the following subparts specific to emergency operations and adequacy of equipment:

- 1. 165:55-13-20. Responsibility for adequate and safe service
- 2. 165:55-13-22. Emergencies
- 3. 165:55-13-23. Adequacy of service
- 4. 165:55-13-24. Adequacy of equipment
- 5. 165:55-13-50. Service standards; sufficient operating and maintenance force
- 6. 165:55-13-53. Restoration of service plan

These rules require telecommunications service providers to maintain their networks and facilities so as to render safe, efficient, and continuous service, and to make adequate provision for emergencies in order to prevent interruption of continuous telecommunications service. The OCC rules also require that telecommunications service providers equip their central office

Section 54.202(a)(2) requires ETCs that are designated by the Commission to "demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations."

facilities with an emergency power source, either on the premises or available on short notice. Finally, the OCC rules require all telecommunications service providers to have a written restoration of service plan, available for review upon request. Bixby Telephone Company complies with all of the aforementioned OCC rules.

Bixby Telephone Company

Response to Lines 900 - 929 - Tribal Lands Reporting

Bixby Telephone (Company) responds to the Tribal Lands Offering data inquiry that its service area does include tribal lands and that it does provide service inclusive of tribal lands residents.

The Company replies "not applicable" to the Tribal Government Engagement Obligation (Line 920) as there is no tribal government or reservation as recognized in the State of Oklahoma. In 2012, Bixby Telephone contacted and met with the Muscogee (Creek) Nation in order to reach out to them and is prepared to coordinate with them in the future insofar as the coordination identified in § 54.313(a)(9).

4.1 LOCAL EXCHANGE ACCESS SERVICE

The Company's Local Telephone Service provides a Customer with the ability to connect to the Company's switching network which enables the Customer to:

> place or receive calls to any calling Station in the customer's local calling area, as defined herein; access enhanced Universal Emergency Number/911 Service where available; access the interexchange carrier selected by the Customer for long distance services; access Operator Services:

> access Directory Assistance; place or receive calls to 800/888 telephone numbers; access Telecommunications Relay Service.

Class of Service: The Local Exchange Service Offering is available in two classes of service distinguished by their primary character or nature of use as well as the location to which service is provided: residential or business.

Local Exchange Service will be classified as Residential Service where the primary use is for social or domestic purposes and the location to which service is provided is a residence or the bona fide living quarter for a combined residence and business premises.

Local Exchange Service will be classified as Business Service where the primary use is for paid commercial, professional or institutional activity and the location to which service is provided is a business or commercial location or the service number is listed as the principal or only number for a business in any telecommunications directory.
